REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding claim 8, the step of "generating a forecast (CA_{LS}) from Load and Ship (LS) by forecasting Customer Acceptances (CA) based on Load (L), Ship (S), and Customer Acceptances history (CA_{hist}) to generate CA_{LS} by estimating the functional relationship and the parameters relating the two ratios quarter-to-date load to quarter CA actual and quarter-to-date ship to quarter CA actual" is neither anticipated nor rendered obvious by the prior art. While the use of the variables Load, Ship, Customer Acceptance, and Customer Acceptance history to forecast demand are well-known in the art, the estimation of the functional relationship between the ratios of Load-to- CA and Ship-to- CA constitutes allowable subject matter.

Regarding claim 9, it recites substantially the same subject matter as claim 8. Additionally, the step of "using a log mean to sigma ratio of CRAD distribution, adjusting, by the computer, the forecasts CA_L , CA_S , and CA_{LS} to arrive at more accurate forecasts $CA_{L,CRAD}$, $CA_{S,CRAD}$, and $CA_{LS,CRAD}$ " is neither anticipated nor rendered obvious by the prior art. While the use of log mean to sigma ratios is old and well-known in the art, its claimed application for adjusting demand forecasts constitutes allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
